### NORTH TORRANCE TATTLER

By MRS. HELENE ALLISON  
Menlo 4-2430

Mrs. Betty Muir was the recipient of a very lovely baby shower this Thursday. This affair was held at the home of Mrs. Ruth Brooks, 3326 West 174, and Mrs. Ann Collins was the co-hostess. Though it was very stormy outside, a most pleasant atmosphere prevailed inside as 17 ladies of the area gathered. Small clothes of every description appeared, even Taylor-Tot and the usual necessities. A pretty cake was served and steaming coffee ended a most friendly occasion for Betty who in the past has done much for the enjoyment of others in our neighborhood.

Mrs. Betty LaRosa is visiting at the home of Mr. and Mrs. Frank Sumerack, 4210 West 178. Betty is the wife of Pfc John LaRosa, a Marine at Camp Pendleton, who until the past weeks resided at Forest Park. Mrs. Sumerack is entertaining her brother's wife with the local sights.

The Don Gordons, 4236 West 178, have as houseguests Mr. and Mrs. Fred Gordon of Victoria, Canada, parents of Don.

Once more the chicken-pox goes around. Vicky Richter is a victim. Vicky is the daughter of Mr. and Mrs. Bob Richter of Crenshaw.

The January Jump went off as scheduled this past Saturday. The El Camino Band was replaced with musemakers from the neighborhood. Mr. Deasey of Glenburn avenue supplied a part of the music along with a very popular piano player. The crowd enjoyed themselves in spite of the dampness which had prevailed around McMaster Hall. NTCIA will sponsor another dance in the near future.

The neatest guy in the world was spotted up and down Crenshaw this week with a truck asking victims of the deluge of water what they would pay to be towed out!

The X-ray was so called because its inventor, Wilhelm Roentgen, could think of no better name for what he felt was an unknown quantity.

It's lamp-lighting time again, so on Thursday, January 31 be sure and have your porch light on for the Mothers of the March of Dimes program. Any amount at all will be collected.

### College Picks Haley to Make Job Survey

Richard Haley, instructor in business at El Camino College, has been selected to assist in a survey of industrial employment needs in the school district.

Dr. William Harless, El Camino director of instruction, announced the selection and said the survey is being conducted to enable the college to plan its courses to meet the needs of the community.

In addition to surveying the needs of industry, the school is making a study of the district population, age groups, and other factors which will be used as a guide in determining college educational offerings.

Preliminary meetings with employers have been held and Dr. Harless says the survey will be conducted on a continuing basis to keep the school constantly informed of the district's needs.

### Camino to Offer Night Class in Concrete Work

In response to a request by Carpenter's union local 1478, El Camino College is offering a course in concrete form construction for carpenters who are on the job, but need advanced instruction.

Union business representative Dale Keyes made the request for the carpenter's union, which has headquarters in Redondo Beach.

John Mills, assistant director of instruction in charge of vocational training at the college, said the course has been added to follow a school policy of cooperation with local business and labor.

The carpenters union assessed its treasury to furnish blue prints of the Broadway Westchester building for study in the concrete form class.

Included in the instruction will be blueprint reading, layout contours, forms for stairways, walls, and other concrete building needs.

The course is to be offered Thursday evenings on the local campus. Classes will start at 7 p.m.
